Dear Hiring professional ,

I appreciate the opportunity to apply as a developer in your company.

I have completed my BSc majoring in Computer Science and Engineering from the University of Information Technology & Sciences (UITS). While I have a comprehensive programming background, emphasis on C, Java, PHP, MySQL, JavaScript, HTML5, CSS3. I feel that your firm places prominence in similar areas and having the privilege of serving as an employee with you will give me that further exposure I need to advance my career. Now I'm working with Institute of Safety, Security and Information Technology (ISSIT) Ltd.

I have a keen interest in PHP(Laravel Framework) as Web Developer that I already have included in my resume.

I would like the opportunity to meet with you to discuss any employee opportunities you might have. Please let me know if you have any questions or would like to see some work samples. You can reach me by phone at +880 1680917143 or email at ataul.gonigalib@gmail.com.

Thank you for your consideration

Sincerely,

Md. Ataul Goni Osman
