How Paysenz will integrate to Your System

We can integrate the system in two ways with your current system

> **Option 1:**

We will provide the API credentials, your existing software Development Company or developer will integrate by using that credentials.

> **Option 2:**

If you developed your system like some popular cms like open cart, magento, woo-commerce, virtue-mart, cs-carrt, WHMCS, presta shop, zen-cart then you can just install the plugins that we already developed for ready reference.
